Notes:
Information presented in this figure was taken from the following documents:
2. Phase 1 Geotechnical Evaluation Report, West Sacramento Region (DWR, November 2007)
3. West Sacramento Levee System, Geotechnical Problem Identification, California (Kleinfelder, September 2007)
4. Preliminary Seismic Evaluation, West Sacramento Levee Assessment Sacramento River, Reach 1 (Kleinfelder, June 2007)
5. Preliminary Hydraulics Report for the City of West Sacramento Levee Alternatives Analysis (MBK Engineers, 2007)

Legend
- Levee Alignment
- Rapid Drawdown Slope Stability
- Steady State Slope Stability

City of West Sacramento, CA
Levee Evaluation Program
Draft Alternatives Analysis

Slope Stability Deficiencies
0.5% annual chance flood (200-yr event)
Preliminary Seismic Vulnerabilities

0.5% annual chance flood (200-yr event)

Legend

Levee Alignment

Seismic
